-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-14 have been considered but are moot in view of the new ground(s) of rejection.

Claim Objections

2. Claims 4, 5, and 7-9 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 4, 5, and 7-9 have not been further treated on the merits.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Keyes et al. USPN 4762738.

As to claims 1 and 2, Keyes teaches a lubricating solution, which contains a deodorant – the Ivory and Joy detergents both contain deodorants comprising a surfactant (col. 3, line 65 through col. 4, line 15). Because the solutions wet the exterior of the pouch, they have the capability of wetting the interior surfaces of the pouch.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Keyes USPN 4762738. Keyes teaches cellulose softening agents and surfactants as suitable material for ostomy pouches, which creates a slimy layer so that the pouch can be easily flushed, essentially the cellulosic lubricating material and surfactants allow the materials to soften for easier disposability. The cellulosic lubricants and surfactants of the present invention also reduce friction between the fecal material and the walls of the pouch, enabling the contents of the pouch to be disposed of easier. It would have been obvious to one of ordinary skill in the art to incorporate the cellulosic lubricant and additional surfactant in a lubricating deodorant. Doing so would provide a deodorant solution that aids the removal of fecal material from the ostomy pouch for easy disposal.

Allowable Subject Matter

7. Claims 10-14 are allowed. The primary reason for allowance is the prior art does not teach or provide motivation for treating the interior of the ostomy pouch with the claimed lubricating deodorant composition,
